

## INTERNATIONAL FEDERATION OF BODYBUILDING AND FITNESS

### **Information and start conditions at PEPA Grand Prix Opava 2020**

In cooperation with SKFČR, the organizers were promised by the government authorities to grant an exemption for the 42nd International Competition IFBB Grand Prix PEPA Opava. The competition will take place on Saturday, December 5th, in the People's House in Opava.

At this point, according to government regulations and rules, the implementation of which is mandatory for an exemption, each participant (athlete, coach, organizer, photographer, etc.) must bring a negative PCR test on Covid-19 not older than 48 hours from the collection of biological samples, in writing. Confirmation in the form of an SMS will therefore not be accepted. Foreign participants must also demonstrate a negative PCR test, which must not be older than 72 hours from the collection of the biological sample.

This obligation does not apply to persons who have demonstrably suffered from COVID-19, do not have clinical signs of COVID-19, have undergone isolation to the specified extent due to a positive RT-PCR test and the first positive RT-PCR result according to the valid emergency measures of the Ministry of Health more than 90 days have elapsed. Furthermore, the organizer must provide an entrance filter to the event area (temperature measurement and collection of self-reporting forms) for all persons entering the area. A person who does not fill in the self-reporting form or has a temperature higher than 37.5 ° C will be allowed to enter only with the consent of a doctor authorized by the organizer.

The organizers are closely monitoring the development of the situation in the Czech Republic. On Sunday, the government will announce what will be waiting for us from Monday, so it is possible that the test conditions will not be necessary. Therefore, please watch the government announcement and also the website [www.skfcr.cz](http://www.skfcr.cz) or [www.grandprixpepa.cz](http://www.grandprixpepa.cz).
