MESSAGE FROM IFBB **PRESIDENT** DR. RAFAEL SANTONJA

Dear friends in sport:

The IFBB is an organization that promotes the values of sport, health, and the Fitness lifestyle around the world.

BODYBUILDING & FITNESS ARE:

- Sports
- Successful complimentary training for other sports
- Healthy lifestyle at all ages

Like a sport, the IFBB organizes yearly over 8.000 competitions worldwide, in which athletes from very young ages in children fitness categories to our master bodybuilding champions, represent the maximum expectation of human physical muscular development in healthy harmony.

As complementary training for other sports, helps the athletes to become stronger, optimizing muscular density at the ideal performance body weight, to achieve his/her maximum potential.

The Bodybuilding and fitness lifestyle is followed by millions of people worldwide.

Regardless of age, gender, and previous physical condition,

bodybuilding training, and nutrition can help individuals to achieve stronger, balanced bodies with proper control of body fat and in good health.

Bodybuilding and fitness weight training and nutrition techniques are great allies of physiologists, physiotherapists, and the medical community to prevent and recover from injuries, accidents and maintain the muscular body functions in better condition for a longer time.

Bodybuilding and fitness are excellent support for anti-aging. In fact, the aging process is expressed physically by the progressive deterioration of lean body mass, and it is represented by the progressive loss of muscles with an increase of fat and connective tissues, which brings the ultimate musculoskeletal and physical deterioration.

Numerous scientific research already proved the great efficiency of fitness training and nutrition to prevent and/or reverse this process. Recent studies have even shown that strength training can cause a functional reversal of aging at the molecular level, "repairing" very poorly functioning genes of elder people.

Nothing else in human history has shown a similar effect! The best visual example of it, is our athletes over 60 and plus years old, and their healthy muscular bodies.

The IFBB is very conscious of all these capacities of our sport and includes in its board a Scientific and Research Commission, working with scientific and university institutions worldwide in the elaboration of reports, participation in symposiums and congresses, and promoting antiaging fitness lifestyle in the society.

The IFBB is pleased to be active in all these areas in the strong belief that physical health is a great contribution from sport to society.

Wishing you all the success, in sport and in life,

Warmest regards,

Dr. Rafael Santonja IFBB President

IFBB CATEGORIES

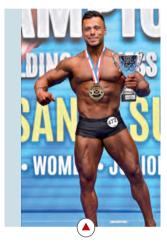

Fitness Challenge

Fitness Challenge, the new IFBB category.

This new category includes different physical exercises to display the athletic ability of athletes, and it's destined to have great success in gym competitions, and in major international events.

The event consists in a circuit of six stations (exercises), in which the competitors perform as much repetitions as they can in a 2 minutes session, of each exercise, making a competition of excellent visual impact, full of emotions, and great dynamism, in which athletes may compete individually, by couples, or by teams (6 persons per team).

A new initiative of the International Federation, with an already excellent implementation and popularity in all over the world.

Fitness The Wellness Fitness division is intended for women who prefer a

Women's Wellness

muscular physique without muscle separation, athletic and aesthetically pleasing, with a bigger body mass than in Bikini Fitness. From this point of view, Wellness Fitness is placed somewhere between Bikini Fitness and Women's Physique.

Assessing of the physique, judging criteria and rounds are the same like Women's Bikini Fitness. Competitors performs quarter turns in all rounds plus individual "I-walking" presentation in the finals. Vertical proportions (legs to upper body length) are ones of the key factors. Horizontal proportions (hips and waist to shoulder width) may favour women with a bit bigger hips, thighs and buttocks. There are four Wellness Fitness categories: up to 158 cm, up to 163 cm; up to 168 cm and over 168 cm.

This sport discipline is similar in structure to Women Fitness; however the body mass is limited according to the formulas established for all four body height ranges: 170 cm, 175 cm, 180 cm and over 180 cm. Currently, there is one open Men's Fitness category.

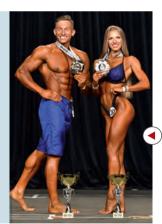

The contest also includes four rounds, with the artistic fitness routine in Round 1 and Round 3 plus quarter turns in Round 2 and Round 4. During the quarter turns competitors wear the swim trunks only and the judges assess the overall male athletic physiques. Posing routines should include strength and flexibility moves, gymnastic moves or other ways of displaying of their athletic talent and capacity.

At the end, the subscores from two final rounds (Round 3 and Round 4) are added to produce the final scores and to reach the final places of the top 6 competitors. Competitors in places from 7th to 15th remain with their scores from the Prejudging (Round 1 and Round 2).

Fit-Pairs

Fit-Pairs is the latest IFBB sport division, introduced in 2020 and approved by the IFBB International Congress. It is devoted for Women's Bikini athletes and Men's Physique competitors to create for them the possibility to perform as a couple. Fit-Pairs athletes don't perform poses like in Mixed-Pairs division and there is no posing routines. They display their physiques, body lines and body quality by performing four quarter turns. Men from the Fit-Pairs perform the Quarter Turns in the same manner like in Men's Physique, while women perform these turns in the same style like in Women's Bikini. Men competitors will wear the same attire like in Men's Physique, Women competitors will wear the same attire like in Women's Bikini. The judge will assess each Fit-Pair as an entity. Those whose physiques match, harmonize, and complement each other will receive higher places than Fit-Pairs whose physiques are markedly dissimilar and unbalanced, as would be the case of a tall ectomorphic man and a short mesomorphic woman, or vice versa, In the Finals, Fit-Pairs perform also I-walking presentation, lasting no longer than 20 seconds, and then four Quarter Turns.

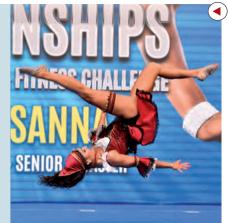

Athletic Fitness

The lineup is composed by 15 athletes, in a sports discipline that combines various elements of strength, endurance as well as balanced physique. The event is composed by Rounds:

- Round 1 (Physique Round; Quarter Turns).
- · Round 2 (Strength Round: Pullups and Dips).
- Round 3 (Endurance Round: Ergometer rowing).
- · Finals Round 4 (Physique Round: Ouarter Turns).
- Finals Round 5 (Strength Round).
- · Finals Round 6 (Endurance Round).

Women Fitness

This concept has been introduced by the IFBB in the early 90's, starting as official competition in 1996 in response to the increasing demand for competitions for women who prefer to develop a less muscular, yet athletic and aesthetically pleasing physique and also to show their physiques in motion. In Women Fitness, the emphasis is placed on a shapely, athletic-looking physique, assessed by comparisons of four quarter turns and athletic ability, assessed during a very attractive and dynamic fitness style routine. Currently, there are two Women's Fitness categories: up to 163 cm and over 163 cm.

The judges are looking for strengths elements, flexibility movements, high tempo, technical perfection, elegance and grace. Competitors may use small props, associated with their attires.

As it is a physique sport as well, there are also two physique assessment rounds beside this artistic routine rounds. In Round 1 and 3 competitors perform four quarter turns in bikini suit, during which the judges assess their figures and body contours, bodypart shape, bodyfat level, body firmness and muscle tone, overall stage presentation (self-confidence, poise, coordination of movements) as well as the overall style of presentation.

Eliminations (if more than 15 athletes), Round 1 (comparisons in guarter turns) and Round 2 (90-second routine) are performed during the Prejudging. In the finals, the top 6 competitors perform their posing routines once again (Round 3) and then quarter turns (Round 4). The subscores from these two final rounds are summed up to create the total and final places of the competitors.

Men's Physique 🕟

They are fit looking contestants who display proper shape and symmetry, combined with some muscularity and good overall condition. The athletes should have stage presence and poise and their personality and ability to present themselves onstage with confidence, should be visible.

In 2016 IFBB introduced one open category of Muscular Men's Physique intended for competitors with slightly bigger muscularity than accepted in the regular men's physique.

Women Bodyfitness

Bodyfitness has been implemented by the IFBB in 2002 to give a chance to compete for wide group of shapely women without the routine rounds, just the physique ones. This formula has proved to be useful and the number of participating competitors increases each year. Later on IFBB created for them the possibility to show their figure in motion during a short individual onstage presentation called "I-walking".

Currently, there are two rounds of quarter turns in the bikini-style costume of their own choice and classic stiletto pump of any color. At the beginning of Round 2 (finals) top 6 competitors perform individual "I-walking" presentations and

In all rounds judges should assess the overall athletic appearance of the physique, taking into account symmetrically developed physique, muscle tone and shape, with a small amount of body fat, as well as the hair, makeup and individual style of presentation, including personal confidence, poise and grace. This sport discipline is widely open for all wellshaped women working out in the fitness centers and following the healthy sport diet. And they take the advantage of it! Like in fitness, subscores from the final round are used to get the final total and places. There are four body height categories: 158 cm, 163 cm, 168 cm and over 168 cm.

Women's Bikini-Fitness 🕨

This category has been introduced in 2011 and is aimed at women who keep their body in shape and eat healthy. Overall body lines, balance and proportions, body tone and healthy appearance are taken into consideration. High-intensity weight training and hard, lean muscles are not necessary. The emphasis is on a well-shaped, fit, healthy and attractive appearance, similar to that of models.

Competitors are assessed in two rounds, wearing a two-piece bikini and high-heels. In both rounds, quarter-turns, including front, back and both sides stance, are performed. As well, the final round begins with "I-walking", which gives each competitor a chance to present her body and her charm on the move. This competition started with one open class and - due to the extreme popularity - expanded to eight body-height categories nowadays: 158 cm. 160 cm. 162 cm. 164 cm. 166 cm. 169 cm. 172 cm and over 172 cm.

Women's Fit Model

New IFBB sport, new possibilities, new challenge.

This IFBB new sport discipline is intended to display the beauty of the human body in a bit different way than in already existing divisions. To create this possibility, an additional, new round was added in both men and women categories, combining sport qualities with elegance of moves, gestures and a kind of "showmanship", wearing non-sport attires. In women's categories it is an evening gown. The Fit-Model competitors must be viewed with the emphasis on a "healthy and balanced" physique, in an attractively presented, impressive "Total Package". Competitors must demonstrate their grace, poise, elegance and sophistication. The gown will.

In the first three rounds athletes wear a one-piece, tight-fitting swimsuit. This attire was specially selected to enable competitors to have a softer midsection, displaying rather attractive body lines and a bit of personality.

Judges should pay attention to the overall appearance of a competitor, the overall body development and shape, proportionally and symmetrically developed, complete physique, the hair and facial beauty, the athlete's ability to present herself with confidence, poise and grace and the general impression made by the competitor.

Children Fitness

Children Fitness is the only IFBB sports division available for children, with no lower age limit, The upper age limit is 16 years old. Then children move to the junior age division.

Children Fitness is one of the most beautiful categories, in a familiar environment, as it is mandatory for the athletes to have the mother (that is usually also an IFBB athlete), as the coach. and therefore IFBB Children Fitness events are a wonderful celebration, plenty of fitness lifestyle families, in which the kids, following the steps from their parents, start their sport carriers, to become later on the champions of the future.

The Children Fitness routine may be a demonstration of talent, personality, and athletic coordination.

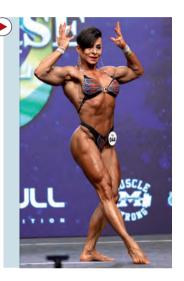

Women's Physique 🕨

This IFBB division was introduced with the beginning of 2013 for women who want to prepare heavier, bodybuilding-style body but not extremely dried, lean and muscular, vet athletic and aesthetically pleasing. Altogether, there are 3 rounds. In round 1 (semi-finals) competitors' physiques and muscularity are assessed during quarter turns and four compulsory poses. In the finals compulsory poses and the posedown are performed in round 2 and a short, 30-second posing routine to music of competitor's choice in round 3.

This sport is placed somewhere between Bodyfitness and former Women Bodybuilding, which has been removed from the IFBB list of official categories in 2013.

Competitors are expected to present the overall athletic development of the musculature but also balanced and symmetrical development of all muscle groups as well their sport condition and quality, with visible separation between them.

There are two categories in this division: up to 163 cm and over 163 cm.

Mixed Pairs

Mixed-Pairs was officially recognized as by the IFBB a sport discipline in 1983 as a bodybuilding mixed

Men from Mixed-Pairs perform mandatory poses in the same manner like in Men's Bodybuilding, while women perform these poses in the same style like in Women's Physique. Men competitors wear the same attire like in Men's Bodybuilding, women competitors wear the same attire like in Women's Physique.

Mixed Pairs competition consists of three rounds: Round 1 in the semifinals (comparisons) plus Round 2 (mandatory poses) and Round 3 (posing routine) in the finals.

In the Mixed Pairs category judges assess the overall physique of both partners for the degree of proportion, symmetry, muscle size and quality (density, separation) as well as skin tone. The couple will also be assessed as a unit with particular attention being given to how well their individual physiques complement each other and how well they move in unison.

In the routine round judges pay particular attention to how well each couple display their physiques to music. Judges will look for a smooth, artistic, and well-choreographed routines which may include any number of poses; however, the mandatory poses must be included. The couple must also include intermittent pauses so as to display the muscular development of their physique.

Classic Bodybuilding

It is a version of bodybuilding for those male athletes who don't want to develop their muscles to their "extreme" full potentials but prefer lighter "classic" physique. To create the equal chances to them, the competitors' bodyweight is limited according to their body height, following the special IFBB formula for each body height category (currently there are five categories: 168 cm; 171 cm, 175 cm, 180 cm and over 180 cm).

Since muscle mass is limited, special attention is paid to the overall view of the physique, body proportions and lines, muscle shape and condition (density, bodyfat level, definition and details).

These values are assessed by the judges during Rounds 1 and 3. In Round 2, like in bodybuilding, free posing routines are performed to music of athlete's choice.

Bodybuilding

Athletes train to develop all bodyparts and muscles to maximum size but in balance and harmony. There should be no "weak points" or underdeveloped muscles. Moreover, they should follow a special pre-competition training cycle, to decrease the bodyfat level as low as possible and remove the underskin water to show the quality of muscles: density, separation and definition. Who can display more muscle details is scoring higher at the contest. And the other matter to be assessed is general view of the physique, which should be proportionally built. It means broad shoulders and narrow waist as well as adequately long legs and shorter upper body.

These qualities are displayed during two physique assessment rounds when competitors do 7 mandatory poses during comparisons of 3 to 8 athletes proposed by the judges. Athletes perform barefoot, in posing trunks. There are 7 bodyweight categories for men: 65 kg; 70 kg; 75 kg; 80 kg; 90 kg; 100 kg and over 100 kg.

There is also a routine round when athletes can show their physique during 60-second free posing routine performed to the music of their choice. It is an attractive, artistic presentation, including compulsory and noncompulsory poses and other type of movements. There are three rounds. In each round each panel judge must put the competitors in order, giving them individual places from the first to the last.

Classic Physique

This new concept in our Bodybuilding modalities is a different version of the Classic Bodybuilding. The relationship between height and weight is different, more kilos, and the criteria worths basically in the old, classic look. Even more, the attire is a retro style one, a short with a minimum long at the sides of 15 cms. Bodies must be classic V shape look, well proportionated, more artistic way to pose. The vacuum pose is the key pose in this division, where a tiny waist is very important in the total physique score. This sport division is growing in every contest under IFBB in despite of being born only months ago.

Classic Physique want to show again the classic look that in the 60's and 70's years in the last century did famous our sport, Bodybuilding. In fact the competition system is doing two news poses; Vacuum pose; famous in the older era of 50's to 80's, the reason for this is easy; evoiding distended bellies and this movement is specially able to show who is the one with problems in this pose. The second new one pose is not only ONE pose, to the calling voice "your favorite classic pose" you can do whatever pose you consider to do, You can not repeat poses and you can not pose to the rear. This way the athlete is free to show his best side to the judges.

> Muscle size, classic physique look, tiny waist, rounded muscles, good shoulders and abdominals are the main weapons among the winners.

Games Classic Bodybuilding

Was introduced by the IFBB in 2016. It is intended for less muscular men, with smaller bodyweight limits, what is the only difference compared to Classic Bodybuilding. There are two categories in Men's Games Classic Bodybuilding: up to 175 cm and over 175 cm.

Wheelchair **Bodybuilding**

The IFBB wanted to create a division to enable male wheelchair users to compete in national and international events, including continental and World Championships.

Athletes train to develop all

upper body parts and muscles to maximum size but remaining in balance and harmony, avoiding "weak points" or underdeveloped muscles.

Preparing for a competition, they decrease their body fat level and remove the underskin water to show the quality of muscles: density, separation and definition.

They display muscles during seven mandatory poses as well as the posing routine which lasts 60 seconds. The athletes perform all rounds seated on the wheelchairs, wearing long pants and sport shoes.

Currently, one open category is performed.

VETERAN ATHLETES PROVIDE HIGH-LEVEL COMPETITION IN SANTA SUSANNA

"Nicola Barlotta (Italy), new Master Bodybuilding World Champion."

"Mariia Burlaka (Bikini), Yevheniia Prutskova (Bodyfitness) and Nataliia Prokhorova (Womeń s Physique) take the overall titles for Ukraine." "Peter Tatarka (Slovakia) returns with a bang to Classic Physique."

"Alexandru Arbulescu and Albert Mufturel win the Classic Bodybuilding titles for Romania."

he World Capital of Fitness repeated as the venue for the Master Bodybuilding and Fitness World Championships. It was a unified event in which many athletes were also able to compete for the overall title. Some of last year's protagonists, such as Nicola Barlotta (Bodybuilding), Mariia Burlaka (Bikini) and Nataliia Prokhorova (Women's Physique) proved that 365 days later they were in even better shape. Age is nothing but a number in Fitness and Bodybuilding, and once again we understand its importance as a strategy to slow down the aging process.

Mariia Burlaka (Ukraine) repeated the title as overall Bikini champion. The 36-year-old and 155 cm high athlete was unbeatable to her rivals. In the image, with the director of the IFBB Medical Services, Dr. Alfonso Morán, and the director of the Judges Committee, Mr. Pawel Filleborn.

Olga Klimova (FBBR) was the overall champion of Wellness at 40. In the image, together with President Santonja and the mayor of Santa Susanna, Mr. Joan Campolier.

Peter Tatarka recovered the title he achieved in 2019 in Classic Physique. In the image, together with President Santonja and the sports councillor of the Santa Susanna City Council, Silvia Vives.

At 46, Nicola Barlotta (Italy) won the overall title of Bodybuilding. With just 75 kilos of muscle, he showed that the most important thing is quality. In the image, with IFBB official Mr. José María García and the president of the Japanese Federation, Mr. Tatsuya Fujiwara.

Yevheniia Prutskova (Ukraine) won the overall Bodyfitness title, at the age of 41, on her return to competition. In the image, together with the director of the Anti-Doping Committee, Prof. Mauricio de Arruda, and the director of the Judges Committee, Mr. Pawel Filleborn.

BODYBUILDING

The competition was exciting in many of the 12 classes full of excellent athletes. These athletes have been hardened in a thousand battles; still, they continued to face each other without restraints, while at the same time showing each other love and respect for being rivals for decades. The main showdown was between two 2020 champions who reissued their gold medal and disputed the overall title: Nicola Barlotta and Marcel Manea. In the end, the Italian won with a 4-point advantage over the Romanian athlete.

WOMEN'S PHYSIQUE

At 50, Nataliia Prokhorova continues to achieve the best results of her career. In 2020 she surprised everyone by appearing lighter than in previous events and took the title; in 2021 she appeared even more improved and with enough quality to defeat her great rival, the Russian Natalia Bystroya. 53 years old. Both athletes, who beat 24 other contenders, are a monument to the idea of weight training as anti-aging therapy.

BODYFITNESS

Once again, athletes from Eastern European countries dominated the competition, with the exception of Sweden's Kathleen Franke who took gold in her class. Ukraine, who won the title in 2020 with Alina Yaman, revalidated it in 2021 with the return of Yevheniia Prutskova.

OVERALL MASTER BODYFITNESS:

Yevheniia Prutskova (Ukraine)

The opinion of a single judge determined that the overall title should go to Yevhenija Prutskova (Ukraine) in her successful return to competition. At 41 years, in top form, she surpassed the aesthetic Tatiana Mandolina, who has been one of the most successful athletes during the last two seasons.

There was a very high level in all classes, yet we must highlight the participation of 32 athletes in the category of 40 to 44 years, won by Olga Pyatetskaya, who was close to the overall title as well. She fell short of the great favourite, Mariia Burlaka (Ukraine), who revalidated her 2020 title and proved unattainable. At 36 vears, she continues to succeed as an overall athlete dominating the Master division. In addition, there was a top form comeback, that of Anna Prokhorova, who, at 50, achieved another gold medal in the +45 years class.

one is the year 2020 in which only a few sports, including Bodybuilding, were able to celebrate their most important international competitions. In 2021, the world has finally begun to recover economically and socially, and the IFBB has reached its 75th anniversary with a sensational World Championship. Athletes and officials from 102 countries participated in the event, with a very high sporting level and some classes exceeding 30 participants of the highest level.

The key to success, once again, was the coordinated work between the IFBB and Santa Susanna, promoted by President Santonja and IFBB patron Mayor Joan Campolier. They knew how to create the material conditions to make a security bubble out of the city, supervised by the Medical Commission, which allowed the athletes to give their best. The positive experience could mean that the IFBB World Championships could be held in the same location from now on, establishing the spectacle for the audience and making travel planning easier for the national federations.

European or World Children Fitness Championships for many years. It was no different also this year. The World Children Fitness Championships held here on the 27th-28th May 2022. This championship has been a huge success and is only a confirmation of the fact that supporting children and young people in our sport is very important.

This year, for the first time, the children fitness challenge categories opened here were also of great interest, and this concept is

thus another project that IFBB is supporting and will support in the future.

An incredible 190 athletes of seven nationalities competing in 14 age categories attended this year World Children Fitness Championships. Thanks to the number of participants, this is a clear record for the last 10 years. More than 90 athletes also registered in the Fitness challenge categories. Unfortunately, this competition ended prematurely due to bad weather. Even so, 43 athletes managed to pass the competition,

have a fun and enjoy together with their coaches, parents and all other supporters the sunny morning.

However, the pilot category, which was interesting for all participants, was the Team category, where four teams presented their breath-taking routines and literally lifted the audience from their chairs.

Medallists in the evaluation of national teams were and great success celebrated Hungary (1st place), Slovakia (2nd place) and Turkey (3rd place).

The winners of each category were:

THE 47[™] EDITION

of the South American **Bodybuilding and Fitness** Championship was held in the city of Sao Paulo, the most populous city and metropolis on the Western Hemisphere.

The Brazilian Confederation of Bodybuilding and Fitness and its president, Professor Diana Monteiro, worked for a year so that the nearly 600 attendees, including amateur athletes, professionals, judges and delegates, would have an excellent experience during their stay.

We have the long-awaited and enriching presence of our President, Doctor Rafael Santonja, who accompanied us during the course for judges and the general assembly of the CSFF. Together, we celebrated the recent participation of our sport in the 2022 XII South American Games held in Asunción, emphasizing the importance that the IFBB is present in almost all games of the Olympic circuit in the world.

The more than 400 amateur athletes participated in an event that lasted for 3 exciting days, in which 30 Elite Pro Cards were awarded. Many of the new professional athletes participated in the Show organized for them at the end of the event, where \$20,000 dollars were distributed in awards.

We thank all the companies that made this event possible and we invite you to the 48th edition of the championship, to be held in Venezuela.

THE WORLD RECORDS ARE STARTING TO COME DOWN

"Omid Mohammad Iani takes the main title with 294 valid reps in the 6 events." "Omid Kalji is the great contender with 2 medals and several records."

he Iranian Federation, chaired by Dr. Abdolmahdi Nasirzadeh, hosted the first edition of the Asian Fitness Challenge Championships, as part of the Asian Cup of Bodybuilding & Fitness held on the island of Kish, from March 9 to 12. Local athletes had the opportunity to confirm the excellent level shown at the

Fitness Sport Games and at the World Championships that were held in 2021 in Santa Susanna (Spain).

With the good work done by Dr. Sadegh Hashemi (the official responsible for this division in Iran), the championships were a very positive test for athletes and organizers, ahead of the next Fitness Challenge World Championships to be held in Iran in December.

The competition was held outdoors and displayed a very high level. Many of the marks achieved in Santa Susanna were surpassed, showing the evolution in this discipline ahead of a new continental appointment: the IFBB European Championships, where the old continent athletes will be able to test their level against that of the Persian team, in the first week of May.

Kambiz Osati	45	60	77	65	77	68	392	BRONZE MEDAL

The competition by pairs was spectacular, with a record of 77 lounges in 120 seconds.

President Santonja congratulates the champions by pairs of the Gold Modality, where Milad Soltani and Hamid Heydari prevailed.

Disputed in open air, the 1st Asian Fitness Challenge Championships were a complete success.

With significant support from sports authorities and the authorities and the government, the Iranian Federation is already preparing to host the II IFBB World Championships in December.

◀The competition by pairs brought together 11 aspiring couples, divided into Gold and Silver categories.

The Pull up test was once again one of the toughest for the athletes. The best mark was the 36 reps performed by Omid Kalji.

▲Without a doubt, the Devil Press test is the hardest, as the athletes reach maximum fatigue. The best performance was by Mohamad Nabi and K. Amiri Marmari, with 33 valid reps.

Equality in the Dips test, where the best mark was also for Omid Kalji.

THE OFFICIAL IFBB events of the Central America region with the endorsement of the Central American Confederation of Bodybuilding and Fitness CCAFF have begun.

This past May 14, the "IX Central American Men and Women's Bodybuilding and Fitness Championship, Tegucigalpa" was held, after 2 years of not holding events due to the Covid-19 pandemic, with Honduras' capital city of Tegucigalpa hosting the event.

The President of the National Federation of Bodybuilding and Fitness of Honduras (FENAFH), Lic. Francis Lara, stressed that sport in the region continues to grow and a reflection of this is the constant work of athletes, coaches and federations. Proof of this was the quality and presentation of new and experienced athletes in the IX CA Championship.

The delegations of the different countries attended with their presidents; from El Salvador Lic. Fabrizzio Hernández, from Costa Rica Lic. Edgar Sánchez, from Nicaragua Eng. Eduardo Abdalah and from Honduras Lic. Francis Lara Smart.

Honduras took the 1st Place as Central American Champion, El Salvador came in second and third went to Costa Rica. This was the first time that Honduras has obtained this important title.

The event had the support of the Honduran Olympic Committee (COH) and the Autonomous Sports Confederation of Honduras, in addition to the Sponsors and Team of the CCAFF and FENAFH.

"Our message as a federation is to thank the great IFBB family and the CCAFF for giving us the confidence as a country to hold this event; to the athletes from the entire region, especially from Honduras, for representing their country in style and fulfilling the goal, and to each collaborator, official sports institution, judge, official and volunteer who make each presentation a unique event. Thank you." (Lic. Lara).

Several of the athletes are already classified for the next Central American Games, the most important event in the region, to be held in October this year in Guatemala. Very soon Central America will be participating in this important Olympic event.

Santa Susanna again hosted the event of the year: EBFF EUROPEAN BODYBUILDING & FITNESS CHAMPIONSHIPS 2022

"What a fantastic and excellent organised European Championships 2022, one of the major annual IFBB events back stronger than ever."

ONE MORE year we were witness of best European athletes who showed highest level of preparation in all modalities. "Symmetry, harmony, muscularity".

Fitness industry taking huge popularity in the world and in IFBB.

Numbers of participants is growing every year as everyone comes to fight for overall champion title, which after many of them turn professional and start career in IFBB Elite Pro league.

The IFBB World Championships return to Santa Susana.

IFBB World Men's Bodybuilding & Men's Fitness championship & IFBB World Women's Cup to be held together with the annual Congress of the International Federation, Santa Susana will host, between November 2 and 7.

▲ The 2022 European Championships, in which athletes from 10 countries took part, were attended by President Santonja, who visited Tallinn to meet with the country's Olympic authorities, accompanied by Mr. Ergo Metsla (president of the EKFL) and Mr. Ott Kiivikas, European Bodybuilding champion and sports reference in Estonia.

THE CAPITAL

of Estonia was once again the international venue for an IFBB event, hosting the European Fit Model Championships held from May 27 to 29 at the spectacular Tondiraba IceHall in Tallinn.

Presided over by Mr. Ergo Metsla, the Estonian Federation (EKFL) did a sensational job, not only organizationally, but also as regards sports, winning the best team award and the overall trophy, won by the spectacular athlete Karoliina Liitmaa. Recognized by its

Olympic Committee, the EKFL continues to work actively in the promotion of Fitness and these championships have been a special motivation for its female athletes, who ended up achieving several medals.

These good results should be continued at the 2022 IFBB World Championships to be held in Lithuania (October 1-2), which are already a sensational showcase for international athletes who want to stand out in the area of sports modelling.

The results were the following:

The impressive final of Tall class (-172 cm), with the great protagonists of the 2022 European Championships: Ida Jokinen (Finland; 6th), Inés Cerezo (Spain; 4th), Samanta Sneliute (Lithuania; 2th), Karoliina Liitmaa (Estonia; overall champion), Maryna Polapa (Ukraine; 3th) and Izaskun Iriarte (Spain; 5th).

we'll have someone who will be remembered for many years. Juli Sinclair from Guyana was the heavyweight champion: big and compensated, although he needs to improve his condition. He won in a hard fight against Nicaraguan Yuri Rodríguez, who did not show with the quality that characterizes him.

As regards Classic Physique up to 175 cm, we had the Guyanese representative Haakmat Randal as the winner thanks to his lines. He is probably the most pronounced X-shaped athlete of the entire weekend. His lats and shoulders stood out together with the pumping of his quadriceps, which gave him a superhero silhouette that many dream of. He was also the champion of Junior Bodybuilding and the overall champion of Classic Physique, beating the winner of tall class, Aldaine Taylor from Jamaica, who won thanks to good lines and a marked definition in his torso. Now, he only needs to develop more of his lower body to consolidate medals in future editions of the CAC.

Duncan Corbin from Antigua & Barbuda won Men's Physique up to 173 cm thanks to his shape and good overall definition. Ricky James from Jamaica was the winner of up to 179 cms and the Men's Physique Overall. Big and defined abs were at the centre of a physique that had lats, shoulders and pectorals giving James an excellent V shape. Jeveaughn Rosewell from Jamaica was the best over 179 cm, where beating fellow Jamaican Akeem Hinds proved far from easy.

In the women's divisions, Mexico, Guyana and Barbados were the countries that won the Overalls in the different disciplines. Bikini was won by the Mexican Febe Martínez Alonso Moreno thanks to her beautiful lines, muscular balance, an exemplary definition for Bikini, that made her win her class and the overall, and also be fifth in the PRO, to which was invited to compete. Another Mexican was the winner of the 160 cm, Dolores Ivette Martínez, with a first class muscle tone, silhouette and pose, with a body where nothing stood out and ideal proportions. Danielle Gill from Barbados was the champion in 169 cms, and was also unanimously chosen winner by all the judges due to her physique with international proportions, her good posing and her just definition for Bikini. Laura Morville from Saint Martin was the champion in the tall class. She stood out for her proportions, but also especially for her outstanding pose, despite not going 100%; it was still enough for her to be the champion of her class

The Bodyfitness division was a face-to-face between tall class champion Dionne Thompson, with a more fluid silhouette but with a pleasant musculature, with room for a little more muscle, and short class Natasha Jones, with a more forceful physique but with the right definition and a firm and confident pose. Natasha was ultimately the overall champion.

Wellness had its own name and a new star: the representative of Guyana, Rosanna Fung, who won the Short class and the overall with a beautiful body, an ideal muscle tone and a development of legs / buttocks that made her creditor of the forms that truly represent this discipline, without neglecting the upper part at all. The champion of the tall class was the Jamaican Cherea Clarke, who showed a fantastic form with PRO lines. Perhaps her point of competition should have been more rushed to give more battle in the Overall.

The team award saw Barbados, Antigua and Barbuda and Mexico come in at 1, 2 and 3 position, respectively. Well see what happens at the next CAC Cup, which marks the 50th anniversary and will be held in Aruba, in September 2030.

The PRO event had a different name: the Roger Boyce Classic Elite PRO. It was its second edition and promises that the third, by 2023, will break records of participation due to the prize money and the expectations raised, which makes it worthy of being the reference test for the Caribbean and America.

ampic

In Women's Physique, the winner, Aruban competitor Sharleen Hengeveld, stood out. Her muscular balance and her good posing, in addition to her staging with adequate definition, made her the champion.

Bodyfitness raised the quality of the competition, thanks to the first three athletes. The third, Ramona Morgan from Barbados had a beautiful figure, smooth skin and excellent forms; the second, German Larissa Reineld, improved her last form with an outstanding definition, tall and with good structure; the champion, Yureica Navarro from Venezuela, has taken the step from the amateur ranks to being a PRO champion, but with the same weapons: a balanced body, lines that are very suitable for Bodyfitness, elegant posing and top-of-theline fitness

The Wellness champion Galimo Militia from Suriname presented good muscular quality, correct forms for Wellness and a definition that is within expectations.

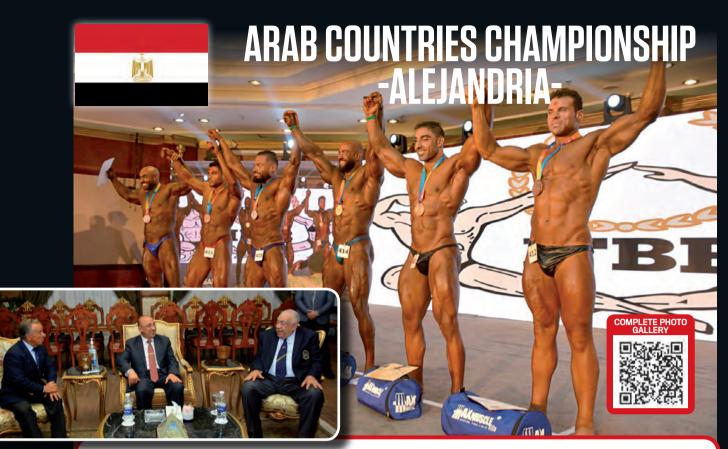

As for Men's Physique, the participation of the Caribbean athlete from Antigua & Barbuda, Anthony Kempton, stood out, with good shape, excellent abs and outstanding size, as well as Kenroy Christian, who was taller and with a somewhat more evident V shape, good abs and energetic posing, only lacking a little more size. Despite these two great athletes, it was the Jamaican Daniel Houghton who took the victory, and he did so with excellent V shape, great muscular quality, excellent abdomen and a more confident and forceful posing.

In Classic Physique it was another representative from Antigua & Barbuda, Bernard Percival, who took the victory in a very difficult competition. Eight great athletes showed why competing in Classic Physique Professional is not easy for anyone. Any of the top 5 had medal options, and the judges had a hard time. Bernard Percival won due to his physique, which very appropriately is without a doubt Classic: rocky, aesthetic physique, excellent abdominals, grooved shoulders rarely seen, V-shape, classic poser at his time, adequate definition and excellent vacuum pose, he was also the best poser of all – and all of this not having the largest muscle mass. The second, Haakmat Randal from Guyana, came from the amateur competition as the overall winner and corresponded to the competitor cut led by Percival: good shape, great V-line, good poser, but still has to speed up his condition.

The Bikini competition was, without a doubt, the toughest and most difficult of all and perhaps the most difficult of all 2022 on the PRO Elite circuit so far. The 2021 PRO world champion from Antigua & Bermuda, Kimberly Percival, once again took gold. Tall, with long legs but with a suitable torso with development of Bikini lines, shoulder width, small waist, good legs and buttocks, although her personal hallmark is that balanced physical condition that makes her difficult to beat and posing that is admirable in every movement. The other two medallists, Leanna Carrington and Michelle Seaforth, were also from the islands of Antigua & Barbuda, as was the fourth, Leanna Carrington and Michelle Seaforth.

The two top medallists in Bodybuilding were also from one of the most successful countries in the area. They were both massive and had improved since the last time they came out to compete. Soepe Koese, the PRO killer from Suriname, combines a huge muscle mass with great arms and back with a tiny waist, and when it is trimmed to the maximum, it can't lose. This is perhaps what separated him from victory, not getting to the limit in his condition. The champion, also from Suriname, was Eddy Wilson, not the pre-pandemic Eddy Wilson, but a super-improved version, in absolutely the best condition we can remember. Bigger, more massive, more ripped and with a muscular balance that makes him the next candidate for PRO WORLD Champion 2022 in

THE CITY of Alexandria hosted a new edition of the Arab Countries Championship at the end of July 2022. The Egyptian federation, chaired by Dr Abdel Fahim, also Vice-President of the IFBB, summoned the best athletes in the area in this historical worldwide city.

Athletes from Palestine, Saudi Arabia, Algeria, Sudan, Oman, among others were in the registry that was carried out in an orderly manner under the supervision of the IFBB Official Mr. Tarik Kalil, who under the direction of the Executive Director of the EBFF who, Don José Ramos, was also attending the event, were registered a total of 388 competitors.

The Championship received a special visit during the day on Friday. The Governor of Alexandria General Mohamed Taher Elsherief, presided over part of the competition alongside the IFBB directors.

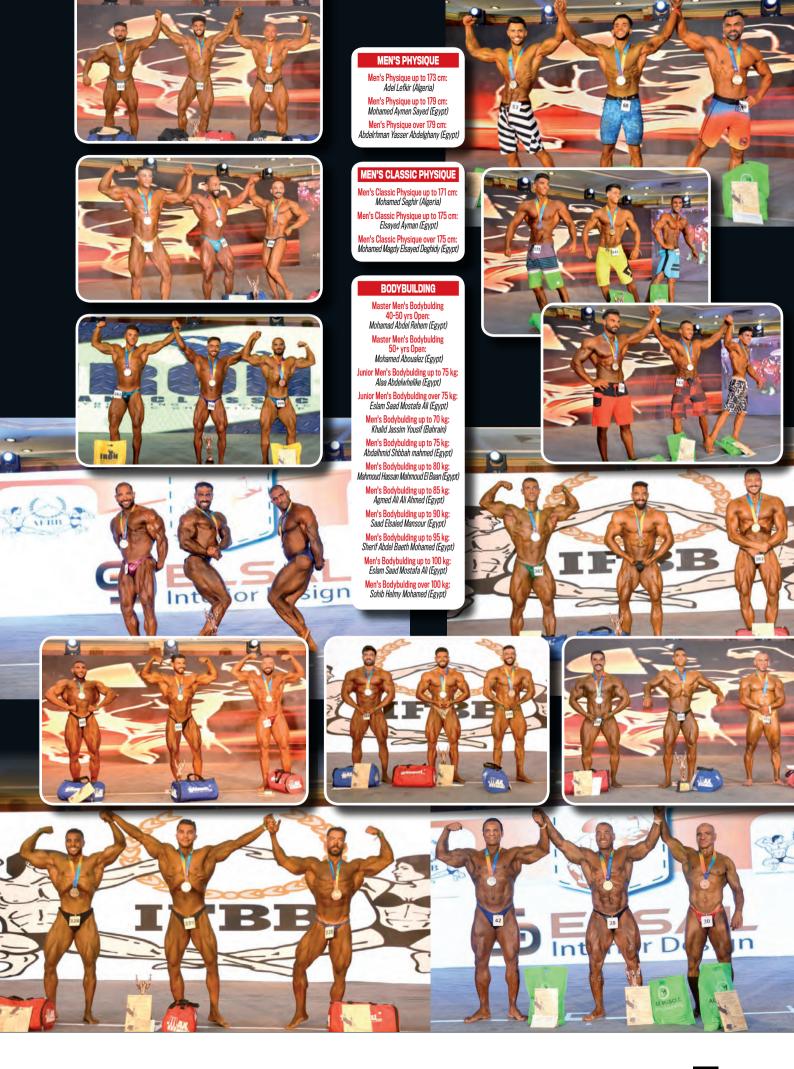

In the sports part in the Classic Physique Category up to 175cm Elsayed Aiman from Egypt won the gold medal. He highlighted his staging and physical form of him. With a good set-up, he distanced himself from his opponents and after several comparisons, he achieved success.

Bahraini athlete Khalid Jassim Youfif won gold in the Bodybuilding category up to 70 kg, ahead of all Egyptian athletes. It was one of the surprises of the day, in a very even category, where the muscle definition and symmetry of the competitor from Bahrain, showed the merit of the prize won.

Another athlete, in this case from Algeria, gave the surprise in the Classic Physique category up to 171 Mohamed Seghir. In a category with 14 Egyptian athletes, he asserted the harmony of his physique that stood out during the final.

A top-level sporting event, led by the staff of the Egyptian Federation, which delighted the spectators. The treatment received by the organization was excellent and all the athletes gave their best to make everyone enjoy a magnificent competition.

THE BELGIAN STARS SHINE ON THE INTERNATIONAL CIRCUIT

"Alina Mashikhina and Bright Eze achieve overall titles for Belgium in Bikini and Men's Physique."

"Fit Pairs and Fit Model consolidate as increasingly important divisions."

THE 2021 Diamond Cup Belgium was held in Mons from October 22 to 23. The event was perfectly organized by the Federation of Belgium chaired by Mr. Andre Wouters, reaching a high number of participating athletes. The disciplines of Bikini and Men's Physique stood out. The event was an excellent opportunity

for the best national athletes to stand out two weeks ahead of the World Championships. The veteran Bright Eze stole the limelight at 42, achieving the gold medal in Men's Physique Middle class, in Master and in the overall competition.

Eze's titles were joined by Alina Mashikini in Bikini, Bram Rotgger

in Men's Physique Tall class, Oumar Sylla in Junior Bodybuilding and Joseph Peter in Classic Physique. Along with Elisa Peeters' double silver medal in Bikini, they made a fantastic selection of champions for the Belgian federation.

The 2021 Diamond Cup Belgium distributed 12 Elite Pro cards and left us the following champions:

del Senani (Algeria), overall champion of Bodybuilding.

THE TUNISIAN Federation of Bodybuilding (TFBB) has consolidated an important sporting activity during the past decade, thanks to its president, Mr. Guedoura Mohamed Marouene. With the gradual overcoming of the Covid-19 pandemic, its activity has begun to recover. After organizing the Maghreb Arab Championships with great success in December 2019, the TFBB once again hosted an international competition, which was held in the country's capital on November 26 and 27, 2021.

The competition was very disputed, and had many similarities with the 2019 Maghreb championships. The two athletes Abdelhakim Slatnia and Adel Lefkir revalidated the gold medals achieved in Classic Physique and Men's Physique, respectively, for Algeria - and became overall winners this time.

The I Diamond Cup Tunisia marks another step forward in the relationship between Bodybuilding and the African Olympic Family. The IFBB is recognized by both the Association of National Olympic Committees of Africa (ANOCA) and by the Association of African Sports Confederations (UCSA).

DIAMOND CUP ROME 4TH AND 5TH DECEMBER 2021

23 COUNTRIES

made up the cast of competitors who met in the halls of the Park Hotel Marriot. The Italian organizational team, led by its President, Mr. Benedetto Mondelo, received all the participants arriving to register on Saturday with open arms. As always, the Italian federation gave a commemorative t-shirt to all participants, to remind everyone that bodybuilding, fitness and healthy lifestyle is alive and well in Italy.

The event kicked off on Sunday morning, with all health measures established by the Italian Government in place. This had been closely overseen by the organization,

FABRIZIO DE

SILVESTRO

and was welcomed by athletes, judges and spectators.

Classic Bodybuilding master and senior classes were first out, with Ihar Sidarchuk and Fabrizio de Silvestro proclaimed winners. The latter won the overall title and with it, the precious Elite-Pro card, as well as a spectacular medal designed for the occasion.

In junior bodybuilding the winner was Salvatore Sambito. who later debuted in senior bodybuilding up to 90kg.

The Overall Master went to Roberto Casevecchia after a beautiful fight with his Italian compatriot Fulvio Comoli.

In women's bodyfitness division, Silvia Cecchinato took gold in the master and senior classes, as well as achieving

the Elite-Pro cards for both, being crowned queen of the division at the 2021 Diamond Cup Rome.

Senior bodybuilding up to 80kg again saw a duel between Nicola Barlota and Alex Zuccaro. After a frenetic fight between the two athletes, current world champion Nicola Barlota took the victory. His great shape and his winning attitude, combined with his flawless choreography, led him to also winning the Overall title.

5 athletes from Brazil, Poland, Italy and Bosnia competed for the Women's Physique title, giving a rhythmic touch to the female disciplines, with plastic

and elegant music and choreography.

The Master Bikini class for over 40 years featured 11 competitors. The Italian Alessandra Santoro won the gold, and later also the overall.

Falón Vargas, Alesandra Stantella, Lucille Salvan and Nadia Cainelli won their respective classes in the bikini fitness division. Falón Vargas took the crown of the bikini classes and obtained the elitepro card.

A great event with a great audio-visual production, thanks to the Italian Federation and its staff, who have once again put Rome in the limelight of the world of fitness.

XV TIGER CLASSIC & **IV DIAMOND CUP ROMANIA 2022**

WE ARE IN BUCHAREST for another edition of the international Tiger Classic event, which is organized by Mihai Tagore with significant help from the officials of the Romanian federation, spearheaded by its president, Mr. Gabriel Toncean. The chosen location was a sports club with a multifunctional room as well as a swimming pool, tennis courts and other sports facilities, where we were welcomed by a climate heralding summer, with more than 30 degrees at noon. The championship was attended by one hundred athletes from fifteen countries.

The Junior disciplines opened the event. In Junior Men's Physique, the V-shape of the Romanian winner Danut Butilca stood out above the others on the podium, with runner-up Raul Sapataru in good shape and a third-placed Andrei Dimitru with good proportions but lacking mass, something, on the other hand, rather common for juniors. In Bikini, the top 3 was made up in third place by the Romanian Nicola Raluca, tall and with a good presence, the Romanian Anastassia Estroilescu who surprised with her good shape and the Belgian Dorine de Spiegeleer who made her international level clear from the first moment. The Junior Bodybuilding division also had a champion who stood out for his level, Czech Pavel Kutlak, who overwhelmed two Romanians who still need to gaie muscle mass to be competitive, Vladut Nicolae Zapis, second, and especially the very tall Adrian Gaitan.

We must highlight the participation of Romanian wheelchair athlete Moise George Gabriel because his quality and muscular size shown make him worthy of being one of the best in Europe in his class.

In Master Bikini, 7 women gathered to give one of the most disputed classes. The Romanian athlete Eliza Oprea took the gold thanks to her lines and her carefully studied pose, followed closely by Virginia Laic and Andreea Savoaia.

The Spanish Jesús Espigares, recent European champion in Master Men's Physique, won this time against the Romanian Laurentiu Barzila and the British Liam Gol. In Bodyfitness Masters, the champion came from Estonia, Karmen Kiier, presenting a fairly balanced physique that made her repeat her victory in BodyFitness against the Bulgarian Emilia Hristova and the Belgian Florence Gerard.

The last Master discsipline, Bodybuilding, had the local competitor Leonida Radu Ticau as the clear winner. Ticau is tall and massive with a correct definition and a forceful physique not lacking in kilos or physical

▲ The organizer, Mr. Guy Kridel, President of the Luxembourg Federation, and Mr. Andre Wouters, President of the Belgian Federation, at the final Bikini ceremony where Elisa Peeters, Mascha Stutz and Oleksandra Pastushenko stood out. All three won the Elite Pro card on account of their quality.

THANKS to its president, Mr. Guy Kridel, the Luxembourg federation (IFBBL) has become a safe destination on the IFBB calendar since 2017. Both the Diamond Cup and the Bellux Cup have become consolidated events for athletes from Germany, Switzerland, Belgium, Holland, France, Spain and Italy. Together, they compete with local athletes and performers from other European countries and

from Mexico, Qatar and the United Arab Emirates. None are surprised at the organizational quality of the event, which was held at the Mordof-les-Bains Casino, on the border with France and Germany again this year.

A total of 15 countries participated in this edition that took place from June 17 to 18. 12 Elite Pro and Elite Pro Master Cards were distributed at the event, as well as points for the IFBB World

Ranking. These lay the foundations for the next event that will take place in the same place on the occasion of the IFBB Bellux Cup, to be held from September 23 to 25.

As for sports, the highlight was the fight in Bikini, with a total of 6 classes, as well as in Bodybuilding, where the German giant Marco Detlef prevailed. The 2022 Diamond Cup Luxembourg left us the following champions:

ARNOLD CLASSIC AFRICA

JOHANNESBURG, SOUTH AFRICA

THOUSANDS of participants and visitors of the Arnold Sports Festival Africa spent an incredible and charming weekend on 3rd-5th, June 2022 in South Africa. The festival included 62 indoor and outdoor sports events, 4 music stages, an open market and many other activities for children and adults. In 2022, the new home of the Arnold Sports Festival Africa became a tent city in an open-air environment comprising 52 large and countless small tents.

This new concept was created by the promoter Arnold Classic Africa Mr. Wayne Price in response to the impact of the Covid Protocols and other restrictions in South Africa limiting spectators and mass gatherings, especially indoors. Moreover, from our point of view, it was a wonderful idea that made it possible to create exciting new experiences for everyone involved. This created a new platform for all sports and communities to share their love and passion with others sport communities, in one space as it was done before and the organizers thus completely fulfilled their slogan: My sport. My art. My passion. The Arnold Classic Africa and the Arnold Classic Africa Elite Pro Show were one of the sporting events. Those exciting events hosted participants from more than 20 countries and their stage fights took place for 3 days. The fantastic stage with excellent lighting was placed in one of the large tents, and the competitors found a background with refreshments in a nearby smaller tent, which ensured their privacy.

Cups and medals were prepared for the medallists, which will allow them to recall their wonderful weekend at every sight. We are ready to go back there again next year and we hope

The winners of each category were:

2021 IFBB DUBAI MUSCLE CLASSIC:

A STUNNING FITNESS AND BODYBUILDING FESTIVAL IN THE UNITED ARAB EMIRATES

"Very high sporting level: more than 40 athletes in several divisions."

"The hosts achieve 4 overall titles: Moosa Ibrahim Albloosi (Bodybuilding), Khalifah Alhmoudi (Classic Bodybuilding), Mahmood Alblooki (Men's Physique) and Abdulla H. Darwish Albaloosi (Muscular Men's Physique).

"The women's competition is dominated by Anja Mioc (UAE Resident; Wellness), Amy Robertson (UAE Resident: Bodyfitness) and Natalie Myslikova (Czech Rep.: Bikini).

THE HBG EVENTS GROUP

and the United Arab Emirates Bodybuilding Federation (EBBF) chaired by His Excellency Sheikh Abdullah bin Hamad bin Saif Al Sharqui, promoted a new and spectacular event in Dubai, which further enhances the prestige of the city as an international reference in the sports field. With more than 500 athletes from Europe, Asia and Africa, plus Oceanic and American residents in the UAE, the 2021 Dubai Muscle

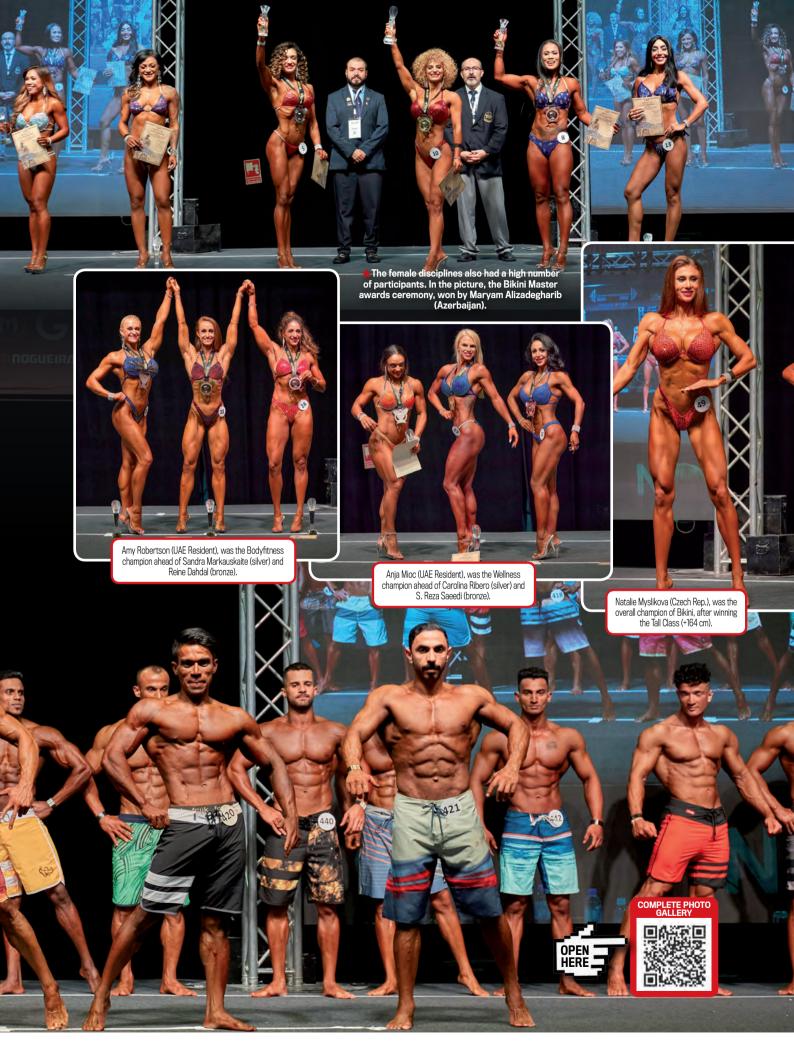

Classic held at the World Trade Centre from October 28 to 30, showed a very high sporting level, especially in men's divisions, some of them reaching almost 50 contestants, making it a real triumph to enter the Top 10.

Along with the maximum demand in men's divisions, women's competition showed enormous progress in the Bikini, Bodyfitness and Wellness disciplines. Not only the athletes with residence in the UAE shone, but also others, such as

Maryam Alizadegharib (Azerbaijan) and Natalie Myslikova (Czech Rep.) who expressly travelled to Dubai from their countries to attend this competition.

The IFBB closely followed the success of the event, led by executives Pawel Filleborn and José María García, who supervised the competition and the demanding task of the judges. The IFBB 2021 Dubai Muscle Classic. which distributed 18 Elite Pro Cards, left us the following champions:

THE UNITED Arab Emirates Bodybuilding Federation (EBBF) chaired by His Excellency Sheikh Abdullah bin Hamad bin Saif Al Sharqui, and the dynamic promoter Bassem Jawhary joined their organizational capacity to end the 2021 IFBB season in Asia from December 7 to 12. They did so with a sensational double event in which athletes from all continents participated, with the exception of Oceania, due to restrictions on international travel.

The IFBB Female Fitness World Cup featured Bikini, Bodyfitness, Wellness Fit Model, Fit Pairs, Acrobatic Fitness and Artistic Fitness disciplines, and the IFBB International Show featured Bodybuilding, Classic Physique and Men 's Physique. Both events were a resounding sporting and participation success, consolidating Dubai and the EBBF as outstanding protagonists of our sports.

Promoter Bassem Jawhary, a promoter of Fitness and Bodybuilding in the United Arab Emirates, together with the two best athletes of Classic Physique: Hossein Mansoor, (runner-up) and Khalifah Alhmoudi (winner), one of the stars of the competition.

CLASSIC BODYBUILDING

The athletes from the Persian Gulf dominated the competition, showing that this is one of their specialties, supported by their another than the control of their specialities, supported by their aesthetics. The overall victory went to the favourite: local athlete Khalifah Alhmoudi, who had already won the title, weeks ago, at the IFBB Dubai Muscle Classic. Alhmoudi, weighing almost 92 kilos for a height of 185 cm, was the tallest and most complete athlete in the division.

Super tall class (+180 cm):	Khalifah Alhmoudi (UAE)

Sports star in the United Arab Emirates Khalifah Alhmoudi was proclaimed overall champion of Classic Bodybuilding and Classic Physique, achieving 4 medals.

The growth of this division was evident in Dubai, seeing the number of participants. As many as 3 champions of Classic Bodybuilding managed to repeat the gold medal in this discipline, that admits a greater muscular size. Fouad Mhmood (Iraq), Hossein Mansoori (who competed under the IFBB flag) and, again, the big favourite, Khalifah Alhmoudi, were the kings of the competition. Special mention to Khalifah Alhmoudi, who also won the overall title. With 4 gold medals, he became the most successful athlete in the competition.

MEN'S PHYSIQUE

The Star discipline in the Emirates again summoned dozens of athletes. We discovered new stars as Juma Mubarak (32 years; 174 cm), who won the Middle class against 17 other athletes, and the overall title against 5 other champions. Amongst them, there was Mubarak's compatriot Ali Dawi Alnaqbi, who repeated the title in the Super Tall class achieved at the recent IFBB Dubai Muscle Classic, and did it with a perfect score from the judges (5 points).

The high participation of athletes brought together competitors from countries such as the Seychelles, with gold medal for Mervin D. Dugasse, Costa Rica, Ghana, Pakistan, Palestine, Kazakhstan or Portugal.

2022 IFBB GIOVANNI CLASSIC

THE ARUBA GRAND PRIX IS BACK WITH VIGOUR

"Olympism is present at the Grand Prix, represented by Ms. Nicole Hoevertsz, Vice President of the IOC."

INTERRUPTED by the pandemic during 2020 and 2021, the IFBB Giovanni Arendsz Classic returned to the international calendar with a bang, bringing together excellent athletes from the 3 American continents on the beautiful island of Aruba, on March 25 and 26.

Promoted by the president of the Central American and Caribbean Confederation (CACBBFF), former professional athlete and excellent sports promoter Mr. Giovanni Arendz, and the national federation of Aruba, where Bodybuilding is an Olympic sport, the Grand Prix of the island of Aruba was held in one of the country's iconic venues: Cas di Cultura Theater & Cultural Center. The importance of our sports in Aruba and in the Caribbean area shouldn't be taken lightly: present at the event was the vice president of the IOC, Ms. Nicole LM Hoevertsz, who is always receptive to advances in Bodybuilding and Fitness as Olympic sports.

The champions of the 2022 IFBB Giovanni Arendsz Classic were the following:

The 2022 Giovanni Arendsz Classic was a great opportunity for Aruban athletes to make themselves known. In the image, Guido Carlo, 4th in the Bodybuilding Light Heavyweight class (-90 Kg.).

2022 IFBB NOCCO PRO QUALIFYER (Sweden)

STOCKHOLM BECOMES AN INTERNATIONAL REFERENCE THANKS TO NOCCO, JAN TANA & TYNGRE

The Top 6 of the Middle Bikini Class, where Agne Kiviselg, overal champion of the show, prevailed.

> **SWEDEN** has once again placed itself at the forefront of international activity, with the 1st edition of the Nocco Pro Qualifier held in Stockholm on April 9 and 10. This show is a continuation of the Tyngre Classic that reached its 11th edition in the previous hours. The event reflects the excellent communication between the Swedish Federation (SBFF) chaired by Mr. Jani Kaaria and the promoter Mr. Alex Danielson, with the support of an international Fitness reference such as Ms Jan Tana.

> The weekend mobilized a good number of European athletes for an amateur event that distributed 6 Elite Pro cards, as well as more than \$10,000 dollars in prizes for professional athletes from America, Africa and Europe. The most important thing, though, was to discover the dynamism of the Nordic countries and the organizational capacity of this sports project that was able to attract more than 50,000 viewers via streaming during the weekend.

With the leadership of athletes from Finland and Sweden, the competition left us the following results:

IFBB INTERNATIONAL CACIQUE BODY & FITNESS in Puerto Rico

ON THE AFTERNOON of May1, Jose Manuel "Kuto" was the brilliant host to the first international edition of the Cacique International, with the invaluable collaboration of the Puerto Rican Federation of Bodybuilding and Fitness, represented by its president Carlos Diaz. All members of the Puerto Rican federation turned to help for the 2022 Cacique International, so it could be at the height of an IFBB international event, which it no doubt was. Held together with a national championship for Rookies, juniors and Masters, it brought together a large and enthusiastic crowd in a beautiful and perfectly conditioned auditorium for the development of competitions in our sport.

The following athletes won the Elite PRO cards:

Jayson Velez Cruz, Overall champion in Mens Physique. He has a classic body with a great development for this discipline, with adequate insertions, clavicular width, a small waist and good abdominal relief. Cruz is an athlete who knows how to show himself, and he prevailed over the rest with remarkable clarity.

Giselle Velez Perez, Bikini Overall champion. Velez presented the most worked physique of the entire discipline. Nothing stood out, which means that it was her muscular balance both in development and in tone and definition that made Giselle the champion by unanimous decision of the judges.

Sacha Rodriguez, Overall Wellness champion. She presented a physique that will be well received in the PRO world as soon as she manages to polish it. The proportions presented are already those that we see in many of the best Wellness athletes in the Elite PRO professional world.

Christopher Rodriguez, Overall Winner in Classic Physique, was the pleasant surprise of the afternoon, a magnificent representation of this discipline on the American continent: muscular quality with details that are rarely seen today. He showed an outstanding definition that did not hide his good proportions and his excellent muscle quality. We will surely see him in the future obtaining medals for Puerto Rico in upcoming events.

We are waiting for the next edition of this Cacique International to be even better than the one we have witnessed in 2022. This is a sign of the good work of both federation and organizers, and the potential of Puerto Rico as a bodybuilding nation continues to grow inside and outside of its borders.

2022 I RIMINI STEEL CLASSIC

"Italy shows dominance in men's disciplines, with a fabulous Men's Physique competition won by Cristiano lonmmetti."

President Santonja witnesses the competition and the growing activity of Fitness and Bodybuilding in Italy."

The world champion, Nicola Barlotta, imposes his rule in Bodybuilding."

"Antonio Primiceri (Italy) dominates Classic Bodybuilding with 2 gold medals."

The 2022 IFBB Rimini Steel Classic showcased the best male physiques on the European continent.

IN A WEEKEND of frenetic action, as the Arnold South Africa and the Diamond Cup Budapest were held at the same time, the Rimini Steel Classic was a complete success with the participation of mainly male athletes driven by the great activity of the Italian Bodybuilding Federation, chaired by Mr. Benedetto Modello.

Supported by its prestige and history as a commercial Expo dedicated to Fitness, Rimini became a claim for athletes from all over Europe, who had the chance to measure themselves against almost 90 local Italian athletes. There was special competitiveness in the divisions of Bodybuilding, Men's Physique and Wellness. President Santonia travelled to Rimini. accompanied by his wife Nieves and his children Manuel and Elena, to witness and show his support to the event, where athletes from 14 countries, including Palestine, competed for 12 Elite Pro Cards and points for the IFBB World Ranking.

Among the stars of the competition we must highlight the veterans Nicola Barlotta, Bodybuilding champion, and Antonio Primiceri, Classic Bodybuilding champion, and the following winners:

▲ World Champion and tireless athlete, Nicola Barlota (77 kilos) won the overall title of Bodybuilding at 47.

Michele Zoccano and Cristiano lommetti (Italy) were the dominators of Men's Physique. Both athletes received the Elite Pro card.

ROMAN HAJABAC is everything to this event. From being the organizer of previous editions to recently being elected president of the Czech Federation, a federation with a team that carries out an intense competitive programme with more than 200 competitors in the Amateur event, plus a PRO event of great relevance. The Hilton Hotel with its conference rooms is one of the best settings, well remembered from previous occasions that the Czech Republic has hosted IFBB International events.

As for sports, after highlighting the wide participation of competitors, it's also worth highlighting the quality of many of them and the significant number of participating countries: more than 25, which makes this event more international than ever. In the Fit Model discipline, the winner Lucie Klvanova from the Czech Republic combined a well-rounded physique with her youth, which made her rise to victory. In overall Men's Physique, the Swedish Sebastian Jansson won thanks to a very balanced physique, where his V shape and his good pose led him to victory against the Czechs Pavel Vasek, second, and Martin Horak, third.

The Swedish Chris Harnell, European champion in Master Men's Physique, imposed his body over a large line of competitors, who could do little against his forceful physique. In Muscular Men's Physique, the Slovakian Adam Csik won, with a very remarkable V-shape and security in his nose

In Bikini Beginners, local celebrity Hana Maslikova-Reinders was the winner to the acclaim of her fans. The also Czech Petra Simova won the master class from 35 to 39 years, and competed for the overall against the Slovakian Zuzana Satmaryova who won the Bikini Masters +40 years -168 and against the champion +40 years +168, Sylvie Moocova from the Czech Rep. The Overall champion was the latter, in a very tough battle with her opponents.

2021/2022 BOOK OF THE YEAR 167

In Bikini Junior age, the Serbian Milena Miletic, only 17 years old, won against a cast of excellent Czech and Slovak competitors. Her youthful physique with excellent lines, adequate tone and the ideal size for Bikini made her champion also in the senior discipline, and third in the Bikini Overall, which is impressive for her age. The Italian Nadia Cainelli, also a champion of her class, was second in the overall with a physique with narrow hips and V shape, and good work in posing. It was the Estonian Agne Kivilseg who imposed her seniority and her excellent physique as well as being the best poser in the discipline. Her posing really enhances her body in each of the poses, with angles that flatter all her muscle groups.

In Fit Pairs, the Lithuanians Tomas Petrenas and Dovile Paulaviciute, who was also champion in the tall Bikini class, was the couple that finally won against the Italians Nadia Cainelli and Francesco Fasciana, a very difficult couple to beat. In the Wellness division, the Czech Junior Natalia Kolenickova presented a forceful physique for her age. The Master Wellness was won by Czech Eva Budina, who was also the Wellness Overall winner, tall and with right size legs/buttocks. She imposed her seniority in her pose ahead of the also Czech Marketa Hartl.

In Classic Physique Junior, Pavel Dostal from the Czech Republic was the champion, while the also Czech Boris Palovic was the champion in Master, thanks to his excellent physique, if he only adds some size to his legs, he won't give anyone an option. Palovic was also champion in Classic Bodybuilding senior. In the Overall of Classic Physique we had two great contenders: Mohamed Ali's worked physique, with excellent definition, muscular balance and a great poser - and the Belgian Joseph Peter, with a classic, harmonious, pumped physique, with a big V and an equally classic pose. Peter convinced the judges to make him the overall winner.

Junior Classic Physique: Pavel Dostal (Czech Republi

BEIRUT was the chosen venue for the celebration of the first edition of the IFBB Mr. Universe, held in Lebanon from August 12 to 15, 2022.

The championship was organized by Hassenen Moukaled, President of the Lebanese Federation and member of the Office of the President, and it was a complete success, with more than 300 participating athletes. The end of the party was perfect, with the celebration of a Gala dinner that both the public and athletes could attend and that was very well received.

The championship had both male and female divisions, and a large crowd attended the event, demonstrating the great power of attraction that bodybuilding has in Arab countries.

These were the winners of each discipline:

Men's Classic

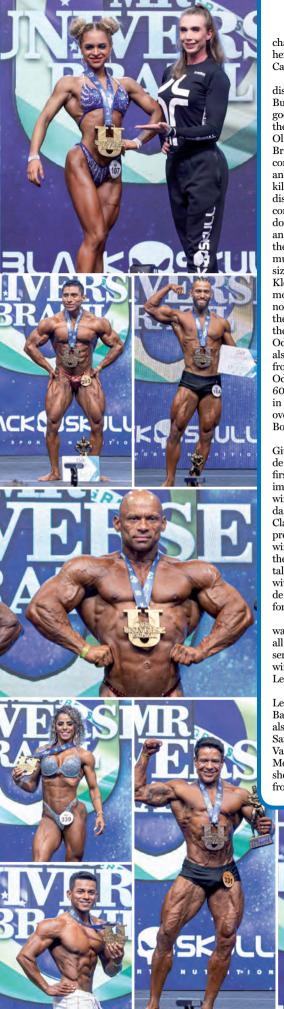

Classic Physique athletes celebrate their positions after the awards ceremony.

The Master class of Wellness went to the middle class champion Juliana Roberta da Silva from Brazil before her compatriots Eloisa Moreira Perego, second and Camila Rodrigues, third.

In the men's competition we had five bodybuilding disciplines, first in 70 kilos with the athlete Felipe Buelvas under the IFBB flag, who rose thanks to a good muscle mass with a fair finish that made him the winner against the Brazilians Alceu Robson de Oliveira and Alencar Euzebius. In less than 80 the Brazilian Alex Sandro Oliveira Coelho imposed his competition point against Valter Pedro from Brazil and Carlos Torres from Argentina. In less than 85 kilos, the Bolivian Moisés Vela was the man of the discipline, with an impressive V shape and an excellent competition point beating the Brazilian Marco Antonio do Nascemento and Cicero Edvan de Souza, also an athlete from Brazil. In less than 90 kilos it was the Brazilian Raphael Porto who won with a good muscular separation and a more than acceptable size against the also Brazilian Asian Guimaraes and Kleyton Pacheco, second and third respectively. In more than 90 kilos, the battle between two giants was noted for the quantity and quality of the muscles that they showed and that delighted the spectators, finally the taller Deivisón Luiz Teixeira was the winner and Odilón Bastista Pedroso Filho in second place. The two, also master athletes, won in their respective disciplines from 40 to 49 in the case of Deivisón and over 50 in Odilón's. The Argentinian Armando Savastano in over 60 years demonstrated the contribution of our sports in the fight against aging. In addition, Deivisón was the overall winner in the Bodybuilding discipline and in Bodybuilding Master.

In Games Classic Bodybuilding it was the Brazilians Giuseppe Leal, young and with good lines, Pedro Lucas de Souza and Georgio de Souza Oliveira who took the first 3 places. In Classic Bodybuilding, Rafael Licks imposed the combination of line, condition and size to win against Mateus Casemiro Anacleto and Jose Roberto da Costa, all of them from Brazil. In the lowest of the Classic Physique classes, Farley Leao from Rio de Janeiro prevailed with an impeccable condition, against the winner of the 70 kilos Bodybuilding Felipe Buelvas and the also Brazilian Alceu Robson de Oliveira. In the super tall class, over 1.75 m, the top 3 was also from Brazil, with Raphael Porto winning again over Mateus Santos de Souza and Joao Da Silva. The overall was in this case for the representative of tall class, Raphael Porto.

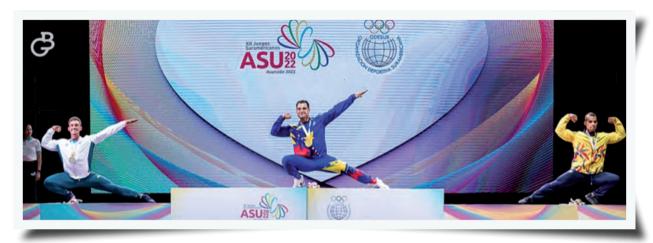

In Muscular Men's Physique Ogacir Fabiano Baptista was the winner against Bruno Coutinho and John Souza, all from Brazil. COGNI7FS THE

•The IFBB's incorporation of bodybuilding and fitness into the Olympic regional programs continues to move forward steadily. The Executive Committee of the Central American and Caribbean Sports Organization (CENTRO CARIBE SPORTS) and later on their General Assembly, voted in favour of the official recognition of the IFBB, and the inclusion of Bodybuilding and Fitness as medallist sports in the next edition of the Central American and Caribbean Games, to be celebrated in El Salvador in 2023.

The decision made by the CENTRO CARIBE SPORTS is another important step towards integrating the IFBB into Olympism, as well as a motivation to all Bodybuilding & Fitness performers in the area. It is also a meaningful achievement thanks to the hard work of IFBB officials, such as Eng. Eduardo Abdalah, -President of the Pan American Confederation for Bodybuilding & Fitness-, and Gral. Juan Santiago Estrada –IFBB Special Adviser-, who works regularly with President Santonja in the achievement of these important goals.

In a new step towards the goal of Olympism, President Santonja travelled to Seul (Korea), attending the XXV General Assembly of the World Association of National Olympic Committees (ANOC).

Seul was host, from October 17th to 20th, of this important meeting point for all the National Olympic Committees (NOCs). The General Assembly is the supreme governing body of the ANOC: the umbrella organization responsible for protecting and advancing the interests of the worldwide NOCs, supporting and promoting the Olympic Values.

President Santonia travelled to Seul, in the follow up of our

relationship with the Olympic Family, before flying to Dubai to attend some important meetings with the Sport authorities in Dubai and Abu Dhabi, from where he travelled to Fujairah to meet H. R. H. Sheikh Mohamad Bin Hamad Al Sharqi, Crown Prince of Fujairah, and as well to participate in a Press Conference to present the IFBB Mrs. & Mr. World that was held at the end of November in the

Emirate. Just one week later President Santonja travelled to Santa Susana, Spain, attending the IFBB World Men's Championships & IFBB Women's World Cup, as well as the IFBB Annual Congress.

IRAN: BODYBUILDING GROWS WITH INSTITUTIONAL SUPPORT

 Bodybuilding is a sport of enormous popularity and prestige in Iran, particularly after the leadership reached by the country in the IFBB World Championships this century. For this reason, as the Asian Fitness Challenge Championships and the Asian Bodybuilding Cup were held on the island of Kish.

Taking advantage of his presence in the country, President Santonja travelled to Tehran, accompanied by the President of the national federation, Dr. Abdolmahdi Nasirzadeh to met with various sports and political authorities.

President Santonja was honored to visit the Minister for Sports and Youth of Iran, H. E. Seyed Hamid Sajjadi, as well as the Iranian Olympic Committee and some members from the Iranian Parlament, updating them all about the

progression of our sport in the country, and as well informing them on future Bodybuilding and Fitness projects and activities in Iran.

As for Educational activities, the IFBB and the Iranian Federation coordinated a course for competition judges and a Fitness course, which were attended by over 700 judges and trainers.

A snapshot from the meeting with the Iranian Minister for Sports & Youth, H.E. Seved Hamid Sajiadi,

President Santonja presented the IFBB Spirit of Sport Award to the Minister for Youth and Sports of Iran, H. E. Seyed Hamid Sajjadi.

 Bodybuilding is one of the most popular sports in the African continent, and IFBB has a strong relation with the continental sport bodies as the ANOCA (Association of African National Olympic Committees) being also recognized member of AASC (Association of African Sports Confederations).

In his last trip to Argelia, President Santonja took the opportunity to meet Mr. Mustapha Berraf, President of ANOCA (Association of African National Olympic Committees) at the NOC Headquarters, updating him on the huge growth that Bodybuilding is experiencing in the North of Africa.

OF THE 31ST CONGRESS

•The Serbian Federation (SSBBFFR) of Bodybuilding & Fitness has, thanks to its president, Mr. Goran Ivanovic, become a consolidated international reference in recent years. In addition to hosting 4 editions of the Diamond Cup Circuit, cities such as Câcâc and Novi Sad have joined their names to the most important Children's Fitness championships. Câcâc will once again host the 2022 World Championships during the days of May 27 to 29.

Along with this multi-continental activity, the SSBBFFR has also dedicated attention and resources to international events of regional nature, such as the 31st Balkan Championships and the BBFF Annual Congress, held in Knjazevac on April 9 and 10. The national federations of the 13 countries that make up the Balkan Federation of Bodybuilding & Fitness, which is chaired by Prof. Gabriel Toncean, met at the Annual Congress. President Santonja travelled to Serbia to supervise the progress of sporting and institutional events and to meet with the main sporting personalities of the country.

During his time at the head of the Serbian Federation SSBBFFR. Bodybuilding and Fitness have grown exponentially. For this reason. he was awarded the IFBB President's Gold Medal.

THE "IFBB MEETING OF THE AMERICAS", ONE MORE YEAR, IN MADRID

On the 11 to the 13 of February, the main American executives of the IFBB met in Madrid (Spain) with President Santonja for the III edition of the so-called "Meeting of the Americas". During this meeting, the American executives designed the fitness activities for the continent, with special attention to events related to Olympism. They also reviewed the evolution of the respective federations and confederations on the continent. The presence of the IFBB at the XII South American Games of the Olympic Programme that took place in Asunción (Paraguay) in October received special attention.

The meeting was held in a historic building in the Spanish capital. Those present at the meeting were: Ing. Eduardo Abdalah, president of the Pan American Confederation and IFBB Vice President for Central America and the Caribbean, Lic. Juan Paredes, president of the South American Confed. and IFBB Vice President for South America; Mr. Marco Cabezas, IFBB Vice President for North America; Mr. Giovanni Arendzs, president of the Central American and the Caribbean Confed.; Mr. Tony Peña, Vice President CAC and NF president, and the director of the IFBB Medical Committee, Dr. Alfonso Morán.

The meeting, also attended by Spanish officials Víctor Hernández and José María García, who are regular IFBB representatives at events held in America, coincided with the Assembly of the Spanish Federation held in Santa Susanna (Barcelona). This spurned a greeting and communication via videoconference between the officials at both meetinas.

The presence of the IFBB at the XII South American Games, to be held in Asunción (Paraguay) in October, was one of the central themes of the meeting.

BODYBUILDING

•Since the end of the summer, face-to-face activity at the IFBB headquarters has accelerated thanks to the control of the pandemic and the increase in competitions around the world.

Several national executives have travelled to Las Rozas (Madrid), to meet personally with President Santonja. First out was Professor Gabriel Toncean, president of the Romanian and Balkan federations, who travelled accompanied by a delegation of officials. During his visit, the Romanian delegation worked on the development of upcoming events in the area, as well as on

the details of what was the successful IFBB European Cup held in Sibiu, (Romania), during the first week of September.

International champion of Classic Bodybuilding and popular Bollywood actor Siddhant More also paid the headquarters a visit. The multifaceted Indian actor is currently filming a new television series, but that doesn't keep him from training and staying active, nor from collaborating directly with the Bodybuilding & Fitness Federation in India. Precisely regarding this matter he visited Madrid: to inform President Santonia on the activities of the Indian Federation.

2021 IFBB ANNUAL CONGRESS

With the Covid-19 epidemy evidently going to the end, IFBB worldwide family exploded with joy and enthusiasm, creating the biggest ever World Championships, with over 1300 participating athletes and 102 countries present at the Congress!

FBB President, Dr. Rafael Santonja, perfectly expressed these general feelings in the introduction to his annual Congress Report, saying – "These World Championships joins us all together, in this difficult period that we are passing, in which every opportunity to meet around sport and friendship give us, more than ever, inspiration and hopes."

To recognize Santa Susanna authorities, IFBB President continued - "I wish to make a special mention to Mr. Joan Campolier, the Major of Santa Susana, also IFBB Patron. In difficult times, everybody wants to be at home, and during these two years of Pandemic, Santa Susana, has been, as always, but this time more than ever, our home, and has been the host of this year (also last year) IFBB greatest events."

Maybe, many participants asked themselves why the IFBB greatest events could be staged in Santa Susanna during this difficult time, but not in other, bigger cities? Dr. Santonja commented this matter briefly – "Thanks to the support of the city in the application of the highest healthy protocols, keeping athletes and officials in a security bubble applied in hotels, transportation and venues, with the supervision of the IFBB Medical Commission."

President Santonja also emphasized other important information connected with the 2021 Congress - "This year, is a very significant occasion, as we are celebrating the 75th anniversary of the IFBB, which, as you all may know, was founded in Canada in 1946, by the brothers Ben and Joe Weider."

In further part of his Report, President Santonja reviewed, month by month, dozens of his international trips and meetings with the top sport officials of the world, included so influence sport organization like the XXV General Assembly of the World Association of National Olympic Committees (ANOC) or Central American and Caribbean Sports Organization (CENTRO CARIBE SPORTS).

200 countries barrier broken! This was possible by approving the memberships of National Federations from the following new countries: Tanzania, Gabon, Benin, Saint Thomas and Prince. By this, the number of the IFBBaffiliated countries raised up to 203. Not coming back to the very beginning (with 2 countries: USA and Canada), do you remember times with 60 (necessary to enter GAISF in 1971) or 125 members in 1984? Who then dreamed about 200? Now it happened!

Mr. Universe is back! This decision should be warmly welcomed by the physique sport fans around the world. IFBB decided to organize five Mr. Universe events per year, one in each of the continents. And this goal has already been achieved in 2022! Moreover, other famous event from the past - "Night of Champions" will also be reinstated!

Our tremendous progress in the Americas! IFBB officially participated or will participate in 2022/2023 in the following prestigious regional Games: Pan American Games (Lima, Peru), South American Games (Asuncion, Paraguay), Central American and Caribbean Games (Panama City, Panama).

Among other continents, good news came from Asia/Africa: IFBB will participate in the 2023 Pan-Arab Games (Bagdad, Iraq).

New IFBB sport division: Fitness Challenge. At the IFBB Bodybuilding and Fitness events we can see athletes displaying their body shape, muscle development and quality. Now, with Fitness Challenge category, all these athletes and fitness enthusiasts that are in the gym, lifting weights or doing exercises with their body weight, will have a Fitness Challenge event to demonstrate on the stage their

2021 IFBB INTERNATIONAL CONGRESS

strength and endurance. Fitness Challenge consists in a circuit of 6 exercises, and allow the competition individually, by couples and/or by teams. Beside Bodybuilding and Fitness, this new division will be a "trump card" at the Fitness Sport Games promoted by the World Fitness Union.

Being recognized by FISU (International University Sports Federations), IFBB established its own University Sports Commission headed by two experienced IFBB officials in this area: Eng. Eduardo Abdalah (Nicaragua) and Dr. Abdolmahdi Nasirzadeh (Iran).

At the 2021IFBB World Championships and Congress, athletes from all over the word were excited to show themselves on the stage and officials were looking forward to meeting each other's, to enjoying the IFBB World Championships, and to discussing the current topics. Probably, it was the reason that so many proposals were sent and analyzed at the Congress.

An important decision made by the Congress was the approval of the Executive Council proposal to stage one big World Championships, included all female and male juniors, seniors and masters divisions and categories, as well as the IFBB International Congress. This is a big challenge for promoters as such an event should last 4

competition days at least but will reduce the costs of participation (one trip, one flight, one hotel, one visa arrangement, easier and cheaper crossovers), increase attendance at the Congress and make the event more attractive for viewers, sponsors and media. Separated events may remain in case of convenience and request.

In this point it is noteworthy that more and more IFBB events may be watched at home via the live streaming transmission. This enables fans all over the world to select and watch their favorable categories.

One of the top matters discussed was the Fit-Model division development. Finally, Congress approved new category: Master Women Fit-Model over 35 years old and increased the number of Women's Fit-Model categories to 5, so currently there are the following categories: 160 cm, 164 cm, 168 cm, 172 cm and over 172 cm.

Regarding Men's Fit-Model category, the Congress instructed the Judges Committee to propose modifications regarding the attire for both rounds.

Other important change in the Technical Rules was the removal of height/weight limits in Men's Fitness. Several years' experience showed that excessive muscle mass has not become a problem in this division, and it is expected that this decision may be more attractive for athletes.

Nowadays there are in the IFBB two categories for couples: recently introduced Fit-Pairs (with no posing routine) and much older Mixed-Pairs (with the routine). Judges Committee proposed to score the mandatory poses and the routine on a 50-50 basis and this proposal was approved. In consequence, routines will also be performed in the semifinals (previously it was performed only in the finals), so couples with good routines will have more chance to qualify to the finals.

And one more change in the number of categories: Muscular Men's Physique division now will have two body height categories: up to 179 cm and over 179 cm instead of one open category. Time will show if this separation height limit was properly established.

One way of promotion of our sports is through big, spectacular events and great champions but the other way, also very important, is to promote the weight training and fitness healthy lifestyle. This job has been done perfectly by the IFBB Academy, which covers over 30 countries and teach people how to execute exercises properly, how to design workouts and nutrition, how to prepare for the contest and much, much more.
